

Proposoothe™ Natural Shampoo

Antibacterial, Anti-inflammatory, Anti-Itch
For Dogs, Cats and Horses

Contains Natural Ingredients from Bee Hives and Oatmeal

Proposoothe™ Natural Shampoo is anti-bacterial, anti-inflammatory and anti-itch. It leaves animals smelling fresh and clean without added perfumes. It also aids in the treatment of red, irritated, itchy and inflamed skin. On animals with sores and wounds, bathe them with Proposoothe™ Natural Shampoo and treat the affected areas with Pavia Natural Wound Care Cream.

Anti-bacterial: Proposoothe™ contains propolis, a natural antibacterial product harvested from bee hives. Propolis is bactericidal against pseudomonas, staph aureus, strep agalactiae, and e-coli.

Anti-inflammatory: Propolis has an anti-inflammatory effect. A study on propolis, published in the "Journal of the Royal Society of Medicine," Volume 83, March 1990, says that the anti-inflammatory effect is due to the flavonoids in propolis, which are benzo- γ -pyrone derivatives found in all photosynthesing cells. The flavonoids in propolis have also been found to stimulate the formation of collagen, which aids the healing process.

Anti-itch: Proposoothe™ contains oatmeal, which has a long history of naturally soothing and reducing itch.

Proposoothe™ Natural Shampoo Ingredient list:

Purified water, Sodium Laureth Sulfate, Oatmeal extract, Cocomicopropyl Betaine, Natural Glycerine, PEG 600 DS, Polysorbate 80, Propolis Tincture, and Phenonip (preservative).

Directions for use:

Wet animal completely. Apply Proposoothe™ Natural Shampoo and massage into pet's coat and skin. Allow shampoo to stay on pet for a minimum of 4 to 5 minutes. Rinse thoroughly. For external use only.
